

Tools for professional learning: Resources and strategies

Plan the best strategies and use of resources:

My SMART goal for professional learning:		
What do you already know that might be useful?		
Who can you link with for support?		
What print resources might you need to inform your thinking?		
What websites or online databases could you search to find quality resources, articles and case studies?		
How will you learn? What strategies will you employ for this learning?		When and how often?
		When and how often?
		When and how often?

Action steps

List the next steps you need to take
