

## Tools for professional learning: Resources and strategies

Plan the best strategies and use of resources:

| My SMART goal for professional learning   |  |                     |
|---|--|---------------------|
|   |  |                     |
| <b>What do you already know that might be useful?</b>   |  |                     |
| <b>Who can you link with for support?</b>   |  |                     |
| <b>What print resources might you need to inform your thinking?</b>   |  |                     |
| <b>What websites or online databases could you search to find quality resources, articles and case studies?</b> |  |                     |
| <b>How will you learn? What strategies will you employ for this learning?</b>                                   |  | When and how often? |
